SEO opportunities - These suggestions will help you improve your on page SEO.

● Title Your title is good but could be improved. +3 opportunities 14/27

OK - But there are still things that can be improved.

The optimal title contains between 30 - 60 characters. This is to make sure the title is visible in the Google result and also has a description of the content on the web page. The keyword should be mentioned in the title one to two times. The first mention of the keyword should be made as early as possible.

- Title exists 7/7
Title was found.
- Entire keyword in title 0/6
The entire keyword is not in the title.
- Part of the keyword in the title 1/2
A small part of the keyword is in the title, amount: 1
- Length of the title 6/6
Perfect amount of characters in your title! Amount: 51
- Keyword position in title 0/6
Keyword position in title: -

● Headings Your headings are good but could be improved. +4 opportunities 8/20

OK - But there are still things that can be improved.

Every web page should have a h1 heading with less than 40 characters that describes the content of the web page. The content of the title and h1 should differ from one another. Only one h1 should exist on a page. The keyword should be mentioned in all headings and the sooner it's mentioned the better.

- Entire keyword in h1 0/3
The entire keyword is not in the title.
- Part of the keyword in h1 0/2
Amount of keywords in the title: 0
- Length of the <h1>-tag 2/2
Perfect amount of characters in your <h1>-tag! You have: 29
- Keyword position in the h1 0/5
Keyword position in the h1: -
- Number of <h1>-tags 4/4
Your page contains one <h1>-tag.
- Different content in title and <h1>-tag 2/2
Perfect your title and <h1>-tag contain different content

Check your site and fix any content-related errors.

- **Keyword in subheadings** 0/2
Keyword was not found in any subheading.

- **Body** Your body content is bad and need to be improved. +4 opportunities 1/28 ^

⚠ **Warning** - There are problems that badly need to be addressed.

Every web page should have at least 500 words in the body text. This shows Google that there is actual content on the web page. The keyword should be mentioned at least three times throughout the body text.

- **Word count** 0/14
Your web page has way too few words. Word count: 302
- **Keyword in body text** 0/7
Your web page never mentions the keyword in the body text. Try to get it up to at least three times. Mentions: 0
- **Keyword partially in body text** 1/5
At least part of the keyword is found
- **Every word in the keyword mentioned.** 0/2
All words were not found.

- **Meta** Your meta-tags are bad and need to be improved. +1 opportunity 0/5 ^

⚠ **Warning** - There are problems that badly need to be addressed.

The meta description is the description of your web page as shown in the Google-results. That's why it's important to mention your keyword as early as possible here.

- **Keyword in meta description** 0/5
Your web page's meta description does not contain the keyword.

- **Media** Your media is bad and need to be improved. +1 opportunity 0/4 ^

⚠ **Warning** - There are problems that badly need to be addressed.

Having images of the keyword on your web page is important, it is equally important to mention the keyword in the alt-tag of the image containing the keyword. Also make sure the alt-tag is describing the image.

- **Keyword found in an image's alt-text** 0/4
Your web page does not mention the keyword in an alt-text of an image.

Passed results - Checks that you've passed with flying colors.

- **Code** Your code is perfect. Good job! 6/6 v
- **URL** Your URL is perfect. Good job! 10/10 v
